

AKINTADE TEMIDAYO

Front-End Developer

Ondo, Nigeria | +234 806 214 8170 | temidayoakintade56@gmail.com

Portfolio: <https://akintade-temidayo-portfolio.vercel.app/> | github.com/akintade-temidayo

PROFESSIONAL SUMMARY

Front-end developer who builds responsive React and Next.js interfaces, currently interning on a course marketplace platform at Irevault. Completed six months of full-stack web development training (January to July 2026) and has five deployed projects. Comfortable turning Figma designs into components and integrating REST APIs alongside backend developers.

EXPERIENCE

Frontend Developer Intern, Irevault

August 2026 – Present | Remote

- Build and maintain the user-facing front end of a course marketplace where creators monetize educational content
- Update the admin dashboard covering user management, course approvals, wallet and withdrawal activity, revenue tracking and analytics views
- Translate Figma designs into responsive React interfaces
- Work with the backend team to integrate REST APIs, handle authentication flows and manage asynchronous state
- Build reusable components that reduce code duplication and speed up feature delivery

Operations Manager, AIESEC Nigeria

2024 – Present | Akure, Nigeria

- Coordinate cross-functional teams of 5+ members across programs and events
- Streamlined internal processes to improve project delivery timelines; also led outreach campaigns and client relationships as Sales Manager

PROJECTS

FolioForge: Multi-Tenant Portfolio Builder

Next.js · Tailwind CSS · MongoDB · Express.js · Mongoose

folio-forge-2jxa.vercel.app

- Interactive portfolio builder for creators with custom layouts, responsive themes and live previews; each user gets a public portfolio link
- Dashboard for managing projects, experience, education, services, certifications and testimonials, with a completion tracker for publishing readiness
- Multi-tenant architecture with CSS custom property theming; extracted shared components and added mobile-friendly menus

Zaira Recipe Blog Platform

Next.js · MongoDB · Express.js · Mongoose · Tailwind CSS

zaira-project.vercel.app | [GitHub](#)

- Full-stack recipe blog where users register, publish posts and browse meals by category
- Implemented authentication with OTP email verification, JWT sessions and password reset flows
- Generated SEO-friendly slugs for post URLs and handled image uploads with validation

MealCraft: Ingredient-Based Meal Planner

React · Tailwind CSS · LocalStorage

meal-planner-three-mu.vercel.app | [GitHub](#)

- Users enter the ingredients they have and get matching meal suggestions, then plan breakfast, lunch and dinner
- Built drag-and-drop meal scheduling with LocalStorage persistence so plans survive page refreshes

Dwello: Property & Hotel Finder (front-end design)

React · Tailwind CSS

dwellohotel-e11f.vercel.app | [GitHub](#)

- Designed and built the front end of a property browsing experience with filtering by location, type and price range, using a warm palette and quality imagery to suit real estate

Mentee: Mentorship Dashboard (team project)

React · Tailwind CSS

- Built with another developer as a platform connecting mentees with mentors; responsible for the dashboard views, progress tracking UI and meeting schedule components

TECHNICAL SKILLS

Front-end: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS

Back-end and data: Node.js, Express.js, REST API design, MongoDB, Mongoose

Tools: Git, GitHub, VS Code, Figma, Vercel, Postman, Bruno

EDUCATION & TRAINING

Full Stack Web Development Training, Enegxi Institute

January 2026 – July 2026

- Six months of tutor-led training in JavaScript, React, Next.js App Router, Node.js, Express.js, MongoDB, Mongoose and authentication, with each topic reinforced by building a project

B.Sc. Human Anatomy, Federal University of Technology, Akure

2021 – 2025
